

Please submit this Statement of Interest under 'Supplemental Documents' as part of your PhD application to be considered for the **NIH Quantitative Mechanobiology (T32)** training grant which heavily overlaps and augments the Biological Engineering PhD. **Please note, only US citizens or permanent residents are eligible for this fellowship.**

**Why are you interested in the T32 training grants and the topics of mechanobiology - the relationship between molecular events and mechanical forces in living systems?**

continued from pg. 1 (if needed)
